

## Citing Air Photos

### General aerial photograph citation format:

Source. [Title] [format]. Scale. Line/roll number. Photo number. Place of publication: Publisher, Date. *Copyright. Post-processing details.*

- Source - The author / organization that produced the photos
- [Title] - A named place associated with the photo(s), if any.
- [format] - The media type of the photo (e.g. air photo or digital air photo)
- Scale - The scale of the air photo (e.g. 1:50,000)
- Line/roll number - Depending on the collection, the photo will have a roll or flight line number, or both (e.g. A27252 1E).
- Photo number - The photo number(s)
- Place of publication - The name of the city/province(state) where the resource was published (e.g. for NAPL photos we use Ottawa because it is a federal dataset)
- Publisher - The name of the company or organization that published the photos (e.g. Ontario Ministry of Natural Resources)
- Date - The date that the photo was published, which for air photos is the year the photo was taken.
- *Copyright* - If applicable. (e.g. © Her Majesty the Queen in Right of Canada 1975).
- *Post-processing details* - If applicable. Indicate manipulations done to the source data. (e.g. Georeferenced and mosaicked by the Maps, Data and Government Information Centre, June 2015)

### Examples

#### Single scanned and georeferenced aerial photograph.

Ontario Ministry of Natural Resources and Forestry. [Douro] [air photo]. Scale 1:10,000. 78-4424-51 photo 12.
